# The Real Estate Report

## Median Home Price Nearing Record High

The median price for single-family, re-sale homes in San Diego County approached the record high of \$585,000 set in November 2005 in April. The median price is now only 3% from setting a new record.

The median price for condominiums set a new record high in March

Home and condo sales were both lower in April compared to the year before.

Properties are being sold quickly. Average Days on Market, which calculates the time from when a property first goes on the market to when it enters escrow, effectively taking it off the market, was thirty-three days for homes compared to an average of fifty-seven days since January 2001.

Days of Inventory is just under two months at fifty-eight days. The average is one-hundred and forty-two.

### THE ADVANTAGES OF OWNING REAL ESTATE IN A SINGLE-MEMBER LLC: FROM MARKETWATCH

Tax simplicity + liability protection

Single-member limited liability companies (SMLLCs) are limited liability companies (LLCs) with only one member (owner). As with a corporation, operating a business or investment activity as an LLC generally protects your personal assets from exposure to liabilities related to the activity — under applicable state law. However, SMLLCs offer some unique tax attributes that make them ideal real estate ownership vehicles. Here's the story on their advantages.

**Table Definitions**

**Median Price**

The price at which 50% of prices were higher and 50% were lower.

**Average Price**

Add all prices and divide by the number of sales.

**SP/LP**

Sales price to list price ratio or the price paid for the property divided by the asking price.

**DOI**

Days of Inventory, or how many days it would take to sell all the property for sale at the current rate of sales.

**Pend**

Property under contract to sell that hasn't closed escrow.

**Inven**

Number of properties actively for sale as of the last day of the month.
